(c) Documents submitted by the Russian Federation on 24 July 2007:
- Detailed information on the different components of the bond amounting to 22 million roubles, the legal basis and the way of calculating each of these components

Case No. 14

Detailed information on the different components of the bond amounting to 22 million roubles, the legal basis and the way of calculating each of these components.

The elements making up the amount of the bond for the purpose of prompt release of the Japanese vessels detained for the violations of the rules of fishing in the Russian EEZ, are laid down in full details in Item 4, Annex II-1 to the Memorandum II of 26 April 2007 addressed by the Department of Fisheries of the Ministry of Agriculture of the Russian Federation to the Department of Fisheries of the Ministry of Agriculture, Forestry and Fisheries of Japan (Annex 19 to the Statement of the Russian Federation in Response).

According to this mutually agreed criteria the bond should be set taking into account the following amounts:
- fines, imposable for the offences;
- compensation for the damage caused;
- cost of illegally harvested living resources and processed products thereof;
- cost of the tools used to commit an offence (i.e. vessel, equipment, gear etc).

1. Fines applicable for the offences related to violations of the Russian EEZ fisheries regulations by the Hoshinmaru-88

A. Fine applicable through administrative case

Article 8.17(2) of the Code on Administrative Offences of the Russian Federation stipulates that a Ship-owner violating the fishing
regulations in the Russian EEZ or the terms of the license "shall entail the imposition of an administrative fine [...] in the amount of from 2-fold to 3-fold cost of water biological (living) resources which have become the subject of the administrative offence with or without confiscation of the vessel and of other instruments of committing the administrative offence".

The fine has been calculated as follows:
weight of catch x cost of 1 kg x 3-fold fine, i.e.
20,063.8 kg x 33.25 roubles x 3 = 2,001,364.05 roubles

B. Fine applicable through criminal case

Article 256 of the Criminal Code of the Russian Federation provides that "illegal catching of fish [...] if these acts have been committed:
a) with the infliction of large damage;
b) with the use of self-propelled transport craft, explosives, chemicals, electric current, or any other method of mass extermination of said aquatic animals or plants; [...] and committed [...] by a group of persons in previous concert, or by an organized group, shall be punishable by a fine in the amount of RUR 100,000 to 500,000 [...]."

This part of the bond has been set at the level 500,000.00 roubles (due to gravity of the committed offence).

2. Compensation for the damage

Article 56 of the Federal Law of the Russian Federation "On Wildlife" establishes responsibility of legal entities and individuals for the damage caused to objects of the wildlife. Such damage is calculated in accordance with respective tariffs and methods.

The total amount of the illegal catch on board of the Hoshinmaru-88 was 20,063.8 kg of raw sockeye salmon.

The Regulation of the Government of the Russian Federation no. 724 of 26 September, 2000 established rates for calculation of the damage caused by illegal fishing in the Russian EEZ, which for the sockeye salmon is 1250 roubles. Thus, the compensation for the damage shall be calculated as follows (quantitative amount of the illegal catch in pieces x tax per piece):

6,342 x 1,250.00 roubles = 7,927,500.00 roubles

3. Cost of illegally harvested living resources and processed products thereof

Since the mentioned staff - illegal catch (687,121.35 roubles) and of processed catch (387,596.20 roubles) - was seized by the Russian authorities it is not included into the sum of the bond.

4. Cost of the tools used to commit an offence (i.e. vessel, equipment, gear etc) subject to the confiscation provided for in Article 8.17 (2) of the Code of Administrative Offences of the Russian Federation

The value of the vessel, including its equipment, was established through appreciation expertise conducted by a Russian Consulting Group "Capital-Plus" on July 18, 2007. The appreciation was conducted in accordance with the Federal Law "On assessment procedure in the Russian Federation" and the criteria established by the Governmental Decree No.519 of July 6, 2001. As for the calculation methodology, a combination of "comparative" and "costs/expenses" approach was applied in the case.
Following the “comparative” approach the expert took into consideration the following parameters of the vessel in question: year of its production, performance attributes, engine power. This assessment was performed through comparing the costs of 6 vessels of the kind, both in Russia and abroad.

In “costs/expenses” assessment the value of the vessel was established by accounting the expenses required to restore the object of the assessment to the desired level of usability. Here the level of physical, functional and exterior wear and tear was taken into consideration.

In accordance with the first approach the value of the vessel was established roughly at 10.3 mln. roubles, whereas the second approach brought 12 mln. Roubles. The joint weighted average appreciation result is 11,350,000.00 roubles.

5. Other related costs

To carry out expertise and other procedural actions the Russian investigation authorities spent 240 000 roubles. In accordance with Article 24.7 of the Code on Administrative Offences of the Russian Federation costs of administrative case shall be covered by the Ship-owner.

The total sum (roubles):

2,001,364.05
+ 500,000.00
+ 7,927,500.00
+ 11,350,000.00
+ 240,000.00
22,018,864.05 rounded to
22,000,000

(c) Documents submitted by the Russian Federation on 24 July 2007 (continued):
- Clarification as to the possibility of the confiscation of a fishing vessel in light of the alleged offences

Case No. 14

Clarification as to the possibility of the confiscation of a fishing vessel in light of the alleged offences

The possibility of the confiscation of a fishing vessel is provided for in paragraph 2 of Article 8.17 of the Code of Administrative Offences of the Russian Federation, according to which “violating the rules of catching (fishing) aquatic biological (living) resources and of protection thereof, or of the terms and conditions of a license for water use, or of a permit (license) to catch aquatic biological (living) resources of the internal waters, or of the territorial sea, or of the continental shelf and (or) exclusive economic zone of the Russian Federation shall entail the imposition of an administrative fine … on legal entities in the amount of from twofold to threefold the cost of aquatic biological (living) resources which have become the subject of the administrative offence with or without confiscation of the vessel and of other tools of committing the administrative offence”.

Criteria of seriousness of violations of the above mentioned rules can be found, for example, in joint directives for combating illegal fisheries in Kamchatka, issued by local Office of the Prosecutor, Coast Guard Directorate, Directorate for Internal Affairs, Directorate for Environment Protection on 15 September 2004. It provides, that in cases when the damage caused as a result of illegal fisheries in the EEZ exceeds 400 minimum wages (i.e. 240 000 roubles in 2004, approximately 440 000 roubles currently) it should be transmitted to the authorities responsible for preliminary investigation which take a decision on filing of a criminal or administrative case before a court.

The following recent cases of the application by Russian courts of paragraph 2 of Article 8.17 show the judicial practice with respect to the illegal catches of comparable value.

On 14 July 2006 the Magadan City Court decided to impose a fine of 1699200 roubles on the company “Skyline United Inc.” and to confiscate the
vessel “Sea Winner” flying the flag of Cambodia. The value of the illegal catch was approximately 850 000 roubles.

On 11 January 2007 the Petropavlovsk-Kamchatskiy City Court imposed a fine of 2 211 660,4 roubles on the Russian company “Okteamresurs-2004” and confiscated the vessel “Garus”. The value of illegal catch was 1 105 830,2 roubles.

In case with the “Hoshinmaru” the value of the illegal catch of living marine resources was 667121,35 roubles, and of the processed products thereof – 387596,2 roubles. It should be taken into account that in the Hoshinmaru case we are dealing with the particularly grave violation of the applicable laws and regulations of the coastal state. Fish fixed in the vessel’s logbook were substituted by different fish species. The Master transmitted false daily information, vessel reports; intentionally registered and provided false information on actual catch; intentionally fixed false information in the logbook; did not effectively control the fishing quota issues. The Master and the owner did not cooperate with the Russian competent authorities. The above mentioned circumstances normally are taken into account by the courts when considering similar cases.

(c) Documents submitted by the Russian Federation on 24 July 2007 (continued):
- Detention of the crew

DETENTION OF THE CREW

The Respondent contests the allegation of the Japanese side that the members of the crew of the “88th Hoshinmaru” were detained by the Russian authorities. No measures of procedural coercion have been applied to them and the Japanese side did not provide any documents testifying to the contrary.

As on 23 July 2007 the crew is on board of the vessel. No member of the crew is detained. In order to leave the vessel and go ashore the crew has to pass through normal procedures of passport control and customs control. These procedures are carried out upon receipt of a request from the master, the owner of the vessel or the agent. This requirement does not have anything to do with the violation of the fisheries regulations and is applied to all foreign seamen arriving in all Russian ports. No request (oral or written) has been received from the master, the owner of the “Hoshinmaru” or the agent.

Nor did the owner of the vessel or its ship’s agent complete formalities required by the Russian competent authorities in accordance with Section 2 of the Annex to the Convention on Facilitation of International Maritime Traffic, adopted on 9 April 1965. Inter alia, the port administration was not provided with the General Declaration dated and signed by the master, the ship’s agent or some other person duly authorized by the master. Nor did it receive the list of the crew.

The crew of a foreign vessel can enter the territory of the Russian Federation through one of points of control and can leave it either aboard the vessel or using other transport. In previous cases, when Japanese vessels were detained by the Russian authorities crew members left home through the airport of Petropavlovsk-Kamchatskiy.

As for the master of the vessel, on 11 July he was asked to sign a written undertaking not to leave the city of Petropavlovsk-Kamchatskiy. However, on 16 July this restriction was withdrawn upon the completion of the necessary requirements of the Russian authorities conducting the investigation.

In other words, nobody from the crew was detained when the application was filed, nor is detained now.

MINUTES OF THE 22ND SESSION OF THE RUSSIAN-JAPANESE FISHERIES COMMISSION (extracts)

8. As far as the point 8 of the agenda is concerned, the Parties exchanged the information on compliance with the fisheries regulations by the vessels of one Party during fishing operations in the 200-mile zone of another Party in 2005 and discussed related issues.

In this context the Commission heard the report on the outcomes of the Conference of experts for monitoring which was held in September 2005 in Sapporo and was satisfied with the fact that the exchange of opinions during this meeting contributed to the solution of the issue of violations and to their prevention.

The Parties examined specific cases of violations by the Japanese fishing vessels of the fisheries regulations in the 200-mile zone of the Russian Federation.

The Russian Side noted that the number of violations in the 200-mile zone of the Russian Federation committed by Japanese fishing vessels remained at the last-year level.

Based on the 1982 UN Convention on the Law of the Sea and 1984 Agreement in cases of detention by the competent authorities of one Party of the fishing vessels of another Party on the assumption of violation of the fisheries regulations and/or laws of the exclusive economic zone upon posting a respective bond or other guarantee and on the grounds of humanitarian considerations, the Parties will take steps on the soonest release of the detained vessels and their crew members within 10 days from the moment of their detention.

The Russian Side noted the arrears in payment of fine sanctions imposed for violation by the Japanese fishing vessels of fisheries regulations as well as the arrears in payment of remuneration for the observers’ services in 1979-1985, 1991-1992 and 1995-2001.

The Japanese Side informed that it had been making efforts to resolve the issues of arrears in payment of fines and observers’ remuneration noted by the Russian Federation and emphasized that it would further work to reduce this indebtedness.

In accordance with the provisions of para 8 of the Agenda of the 21st Session of the Commission the Japanese Side submitted to the Russian Side in February 2005 the information on bankruptcies and other circumstances with respect to the companies in debts. The Russian Side highly appreciated the efforts of the Japanese Side and, at the same time, informed that if all the necessary documents were submitted, the vessels would be removed from the list of infringers. Otherwise, the vessels cannot be removed from the list.

The Russian Side noted the necessity to continue working on the issues related to the Russian observers’ remuneration debt payment.

The Japanese Side noted that in 2005, there were cases when Russian vessels had been modifying their harvesting plans while conducting operations in 200-mile zone of Japan without proper notification on such changes in their plans.

In this context the Russian Side informed that in the above cases, noted by the Japanese Side at the Conference of experts for monitoring in September 2005, the Head of the PrimoryeBvoda company brought to notice of the concerned Russian fishing operators the requirements to comply meticulously with the fishing regulations.

The Parties believe that the failure to pass through marine checking points established in the zones of the both countries is a grave violation
and voiced their intention to communicate in full this fact to the concerned companies of the both Parties.

The Parties came to the agreement that the inspection of fishing vessels should not affect, whenever possible, the routine fishing operations.

Both Parties reaffirmed that it was obvious that the right of control over fishing activities should be mutually respected.
therefore, such judgment enters into legal force immediately after it is made (see para 3, Article 31.1 of the Code of Administrative Offences of the Russian Federation).

Hereafter, it is possible only to reconsider the enforced rulings and judgments in cases of administrative offences on behalf of persons listed in para 3, Article 30.11 of the Code of Administrative Offences of the Russian Federation and upon notice of opposition from officials of Prosecutor’s Office listed in para 2 of the said Article and upon complaints from persons listed in Articles 25.1 - 25.5, para 1, Article 30.1 of the Code of Administrative Offences of the Russian Federation.

I ask you to bring the above said to the judges’ notice.

PART I One
SECTION I The General Provisions

Chapter 2. Arising of the Civil Rights and Duties, Exercising and Protection of the Civil Rights

Article 8. The Grounds for the Arising of the Civil Rights and Duties

1. The civil rights and duties shall arise from the grounds, stipulated by the law and by the other legal acts, as well as from the actions of the citizens and of the legal entities, which, though not stipulated by the law or by such acts, still generate, by force of the general principles and of the meaning of the civil legislation, the civil rights and duties. In conformity with this, the civil rights and duties shall arise: 1) from the law-stipulated contracts and other deals, and also from the contracts and other deals, which, though not stipulated by the law, are not in contradiction with it; 2) from the acts of the state bodies and of the local self-government bodies, which are stipulated by the law as the grounds for the arising of the civil rights and duties; 3) from the court ruling, which has established the civil rights and duties; 4) as a result of the acquisition of property on the grounds, admitted by the law; 5) as a result of creating the works of science, literature and art, of making inventions and producing other results of the intellectual activity; 6) as a result of inflicting damage to another person; 7) as a consequence of an unjust enrichment; 8) because of other actions performed by the citizens and the legal entities; 9) as a result of the events, with which the law or the other legal act connects the arising of the civil legislation consequences.

2. The rights to the property, liable to the state registration, shall arise from the moment of the registration of the corresponding rights to it, unless otherwise stipulated by the law.
Article 9. Exercising of the Civil Rights

1. The citizens and the legal entities shall exercise the civil rights they possess at their own discretion.
2. The refusal of the citizens and of the legal entities to exercise the civil rights they possess shall not entail the termination of these rights, with the exception of the law-stipulated cases.

Article 11. Protection of the Civil Rights in the Court

1. The violated or disputed civil rights shall be protected by the court of justice, the arbitration court or the arbitration tribunal (hereinafter referred to as the court), in conformity with the liability of the cases to these bodies' jurisdiction, established by the procedural legislation.
2. Protection of the civil rights in the administrative order shall be effected only in the law-stipulated cases. The decision, adopted administratively, may be appealed against in the court.

Article 12. The Ways of Protecting the Civil Rights

The civil rights shall be protected by way of:
- the recognition of the right;
- the restoration of the situation, which existed before the given right was violated, and the suppression of the actions that violate the right or create the threat of its violation;
- the recognition of the disputed deal as invalid and the implementation of the consequences of its invalidity, and the implementation of the consequences of the invalidity of an insignificant deal;
- the recognition as invalid of an act of the state body or of the local self-government body;
- the self-defense of the right;
- the ruling on the execution of the duty in kind;
- the compensation of the losses;
- the exaction of the forfeit;
- the compensation of the moral damage;
- the termination or the amendment of the legal relationship;
- the non-application by the court of an act of the state body or of the local self-government body, contradicting the law;
- using the other law-stipulated methods.

Article 15. Compensation of the Losses

1. The person, whose right has been violated, shall be entitled to demand the full recovery of the losses inflicted upon him, unless the recovery of losses in a smaller amount has been stipulated by the law or by the agreement.
2. Under the losses shall be understood the expenses, which the person, whose right has been violated, made or will have to make to restore the violated right, the loss or the damage done to his property (the compensatory damage), and also the undeceived profits, which this person would have derived under the ordinary conditions of the civil turnover, if his right were not violated (the missed profit). If the person, who has violated the right of another person, has derived profits as a result of this, the person, whose right has been violated, shall have the right to claim, alongside with the compensation of his other losses, also the compensation of the missed profit in the amount not less than such profits.

Chapter 5 Participation of the Russian Federation, of the Subjects of the Russian Federation and of the Municipal Entities in the Relationships, Regulated by the Civil Legislation

Chapter 5. Participation of the Russian Federation, of the Subjects of the Russian Federation and of the Municipal Entities in the Relationships, Regulated by the Civil Legislation

Article 124. The Russian Federation, the Subjects of the Russian Federation and the Municipal Entities as the Subjects of Civil Law

1. The Russian Federation, the subjects of the Russian Federation: the Republics, the territories, the regions, the cities of federal importance, the autonomous region, the autonomous areas, and also the urban and rural settlements and the other municipal entities shall come out in the relationships, regulated by the civil legislation, on equal terms with the other participants of these relationships - the citizens and the legal entities.
2. Toward the subjects of civil law, indicated in Item 1 of the present Article, shall be applied the norms, defining the participation of the legal entities in the relationships, regulated by the civil legislation, unless otherwise following from the law or from the specifics of the given subjects.
Article 125. The Order of Participation of the Russian Federation, of the Subjects of the Russian Federation and of the Municipal Entities in the Relationships, Regulated by the Civil Legislation

1. The right to acquire and exercise by their actions the property and the personal rights, and to come out in the court on behalf of the Russian Federation and of the subjects of the Russian Federation shall be vested in the state power bodies within the scope of their jurisdiction, established by the acts, defining the status of these bodies.
2. The right to acquire and exercise by their actions the rights and duties, indicated in Item 1 of the present Article, on behalf of the municipal entities shall be vested in the local self-government bodies within the scope of their jurisdiction, established by the acts, defining the status of these bodies.
3. In the cases and in conformity with the procedure, stipulated by the federal laws, by the decrees of the President of the Russian Federation and the decisions of the Government of the Russian Federation, by the normative acts of the subjects of the Russian Federation and of the municipal entities, the state bodies, the local self-government bodies, and also the legal entities and the citizens may come out on their behalf upon their special order.

Article 209. The Content of the Right of Ownership

1. The owner shall be entitled to the rights of the possession, the use and the disposal of his property.
2. The owner shall have the right at his own discretion to perform with respect to the property in his ownership any actions, not contradicting the law and the other legal acts, and not violating the rights and the law-protected interests of the other persons, including the alienation of his property into the ownership of the other persons, the transfer to them, while himself remaining the owner of the property, of the rights of its possession, use and disposal, the putting of his property in pledge and its burdening in other ways, as well as the disposal thereof in a different manner.
3. The possession, the use and the disposal of the land and of the other natural resources so far as their circulation is admitted by the law (Article 128), shall be freely exercised by the owner, unless this inflicts damage to the natural environment or violates the rights and the legal interests of the other persons.
4. The owner may pass his property over into the confidential management, or into the trusteeship (to a confidential manager, or to the trustee). The transfer of the property into the confidential management shall not entail the transfer of the rights of ownership to the confidential manager, who shall be obliged to perform the management of the property in the interest of the owner or of the third person the owner has named.

Article 212. The Subjects of the Right of Ownership

1. In the Russian Federation shall be recognized the private, the state, the municipal and the other forms of ownership.
2. The property may be in the ownership of the citizens and of the legal entities, and also of the Russian Federation, of the subjects of the Russian Federation and of the municipal entities.
3. The specifics of the acquisition and of the cessation of the right of ownership to the property, of the possession, the use and the disposal thereof may be established by the law, depending on whether the given property is in the ownership of the citizen or of the legal entity, in the ownership of the Russian Federation, of the subject of the Russian Federation or of the municipal entity. The law shall stipulate the kinds of the property, which may be only in the state or in the municipal ownership.
4. The rights of all the owners shall be equally protected.

Article 214. The Right of the State Ownership

1. The state property in the Russian Federation shall be the property, owned by the right of ownership by the Russian Federation (the federal, or the federally owned property), and also the property, owned by the right of ownership by the subjects of the Russian Federation - by the Republics, the territories, the regions, the cities of federal importance, by the autonomous region and by the autonomous areas (the property of the subject of the Russian Federation).
2. The land and the other natural resources, which are not in the ownership of the citizens, the legal entities or the municipal entities, shall be the state property.
3. On behalf of the Russian Federation and of the subjects of the Russian Federation, the rights of the owner shall be exercised by the bodies and by the persons, indicated in Article 125 of the present Code.
4. The property, which is in the state ownership, shall be assigned to the state-run enterprises and institutions into the possession, the use and the disposal in conformity with the present Code (Articles 294 and 296). The means of the corresponding budget and the other state property, not assigned to the state enterprises and institutions, shall comprise the state treasury of the Russian Federation, the treasury of the Republic within the Russian Federation, of the territory, the region, the city of federal importance, of the autonomous region and of the autonomous area.
5. Referring the state property to the federal property and to the property of the subjects of the Russian Federation shall be effected in conformity
Chapter 60. Obligations Due to Unjust Enrichment

Article 1102. The Obligation to Return Unjust Enrichment

1. A person who has acquired or saved property (purchaser) without the grounds, established by the law, other legal acts or the transaction, at the expense of another person (victim) shall be obliged to return to the latter the property acquired or saved unjustly (unjust enrichment), except for the cases, provided for by Article 1109 of this Code.
2. The rules, provided for by this Chapter, shall be applicable regardless of the fact whether unjust enrichment resulted from the behavior of the purchaser of property, the victim himself, third persons or took place regardless of their will.

Article 1103. The Correlation of Claims for the Return of Unjust Enrichment With Other Claims for the Protection of Civil Rights

Inasmuch as the contrary is not established by this Code, other laws or other legal acts and does not follow from the essence of corresponding relations, the rules, envisaged by this Chapter, shall be applied to the following claims:
1) for the return of the executed in an invalid transaction;
2) for the reclamation of property by its owner from the illegal possession of other people;
3) of one party in the obligation to the other party for the return of the executed in connection with this circumstance;
4) for the redress of injury, including that inflicted by the dishonest behavior of the enriched person.

Article 1105. Compensation for the Value of Unjust Enrichment

1. If it is impossible to return the groundlessly acquired or saved property in kind, the purchaser shall compensate to the victim for the actual value of this property at the time of its acquisition, and also for the losses, caused by the subsequent change in the value of property, if the purchaser has not reimbursed its value at once after he has known about unjust enrichment.
2. A person who groundlessly used the property of other people for the time being without his intention to acquire it or used the services of other people shall recompense to the victim all that he has saved owing to such use at the price existing at the time when this use ended and in the place where the use took place.
Article 1109. Unjust Enrichment Not Subject to Return

The following property shall not be subject to return as unjust enrichment:
1) property transferred for the execution of the obligation before the onset of the time for execution, unless the obligation provides for otherwise;
2) property transferred for the execution of the obligation upon the expiry of the period of limitation;
3) wages and salaries and payment equated therewith, pensions, benefits, scholarships, the redress of injury inflicted on human life or health, alimony and other pecuniary sums given to an individual as means of subsistence in the absence of dishonesty on his part and of calculation error;
4) pecuniary sums and other property given for the execution of a non-existent obligation, if the purchaser proves that the person who demands the return of property knew about the absence of the obligation or granted property for charity purposes.

THE GOVERNMENT OF THE RUSSIAN FEDERATION

DECREES
3 July 1998, № 696

ON ORGANIZATION OF RECORD-KEEPING OF FEDERAL PROPERTY AND KEEPING REGISTER OF FEDERAL PROPERTY

(Extract)

With the objective of organizing the record-keeping of federal property in line with the legislation of the Russian Federation, as well as improving the mechanisms for the management and administration of the property the Government of the Russian Federation enacts:
1. To approve the attached Regulation on the Record-keeping of Federal Property and Keeping Register of Federal Property (further mentioned as the Regulation);
2. To charge the Ministry of State-owned Property of the Russian Federation with the task of organizing the record-keeping of federal property and keeping register of federal property (here and after referred to as the Register).

Approved
by the Decree of the Government of the Russian Federation

REGULATIONS
ON RECORD-KEEPING OF FEDERAL PROPERTY AND KEEPING REGISTER OF FEDERAL PROPERTY

(Extract)

I. General provisions
1. These Regulations shall establish procedure for record-keeping of the federal property and keeping Register of the federal property (here and after referred to as the Register) in accordance with the legislation of the Russian Federation which regulated the relations which appear during management and administration of federal property and creation of information systems.

2. The Register in these Regulations shall be understood to mean a federal information system which shall be a combination of data bases built on single
methodological and software and hardware principles and containing lists of items of the record-keeping and their data which are the subject of the recording in the State Register.

3. The subjects for the recording in the Register (here and after referred to as subjects for the recording), situated on the territory of the Russian Federation, as well as abroad, shall be:

a) federal property secured with the right of an economic management to a State-owned unitary enterprise, or with the right of an actual management to a federal government-owned enterprise or a State-owned enterprise, or a State-owned enterprise as a whole as a property complex;

b) other real-estate and movable property, including the one transferred with the objective of use, lease, mortgage and other purposes.

4. Data characterizing these objects (locations, cost, encumbrance, etc.) shall be the data for the record-keeping.

II. Procedure for the record-keeping of federal property

5. The record-keeping of federal property shall include a description of the object of the record-keeping with an indication of its individual specific features which shall definitively allow to distinguish it from other objects.

7. To record a federal property kept in possession of legal entities registered on the territory of the Russian Federation, the legal entity (the Applicant) shall deliver to a respective territorial body of the Ministry of the State-owned Property of the Russian Federation, or a body for the management of the State-owned property in the constituent entity of the Russian Federation empowered with the rights of a territorial body of the Ministry of the State-owned Property of the Russian Federation (here and after referred to as the Territorial body):

a) the Application signed by the head of the legal entity for acquiring of a Certificate (here and after referred to as the Certificate) to enter the object of the record-keeping into the Register of Federal Property in accordance with the form provided for in Annex № 1;

b) Property Recording Card (here and after referred to as the Recording Card) of the federal property in possession of the legal entity with a list of objects of real-estate filled in accordance with Annex № 2;

c) copies of documents supporting the data on the object of the record entered into the Recording Card.

8. The territorial body shall register the Application on the day it was delivered and within a month shall execute an expert verification of the data and their entry into the database.

9. In case the territorial body has doubts as to the consistency of the data provided it has to notify immediately the Applicant accordingly who shall have the right within one month to provide additional information; the time-limit for the recording shall be extended but not more than for a month after the day the additional information was delivered.

10. The territorial body shall adopt the decision to refuse to issue the certificate in case, if:

a) it is revealed that the object of the recording is not a federal property;

b) after the recording was suspended the Applicant has not provided the additional information within the established time-limit;

c) the provided papers do not correspond to the requirements of the Russian Federation.

11. In case the decision to refuse to issue the Certificate is adopted, the Applicant shall be served a refusal notification (explaining the grounds for the refusal) within five days after the decision was adopted, and a copy of this notification together with the copies of the papers provided by the Applicant shall be sent to the Ministry of the State-owned Property of the Russian Federation.

The Applicant shall have the right to appeal the refusal in accordance with the procedure established by the legislation, including by addressing it to the Ministry of the State-owned Property of the Russian Federation.

FISHERIES REGULATIONS FOR THE FAR-EAST FISHING BASIN
(Extract)

I. General Provisions

1. The Fisheries Regulations for the Far-East Fishing Basin govern fisheries activities of Russian legal and natural persons [...] in internal waters of the Russian Federation, its territorial waters and Exclusive Economic Zone within the Far-East Fishing Basin, as well as fisheries activities of foreign legal and natural persons in accordance with the Russian legislation and International Treaties concluded by the Russian Federation.

2. The Far-East Fishing Basin comprises [...] Pacific Ocean waters adjacent to the Eastern Kamchatka and the Kuril Islands including the basins of the flaying rivers [...].

3. The Fisheries Regulations govern:
- obligations of those harvesting water biological resources;
- list of the documents required to carry out fisheries;
- requirements to those harvesting water biological resources;
- areas/zones where fishing is prohibited;
- seasons when fishing is prohibited;
- species prohibited for exploitation;
- equipment and methods for harvesting water biological resources;
- minimal mesh size, parameters of fishing gear;
- allowable fish size and percentage of young fish in the catch;
- allowable percentage of fish of one species in the catch of other harvested species.

4. In case when International Treaties of the Russian Federation in the sphere of fisheries and conservation of water biological resources provide the rules different from the Fisheries Regulations the rules of the Treaties should apply.
II. Rules of harvesting water biological resources for the purposes of industrial fishing, including off-shore fishing, in territorial waters and Exclusive Economic Zone of the Russian Federation

1. Users' obligations

7. While carrying out industrial fishing, including off-shore fishing, the users:

7.1. should provide:
- individual catch registration according to species of water biological resources, records of weight ratio of species in the catch, fishing gear and locations of fishing (region, sub region, harvesting zone, harvesting sub zone) in the log-book and in other reports;
- compliance with provisional requirements of satellite monitoring of Russian and foreign fishing vessels established by the Orders of the State Committee of Fisheries of the Russian Federation N 338 of November 30, 1999 and N 330 of November 22, 1999;

[...]

7.8. the Master of a fishing vessel or other person responsible for harvesting water biological resources shall:
- submit daily ship reports (DSR) on fishing activities (the data included into these DSRs are to strictly correspond the vessel's, harvesting and technological log-books. Copies of the DSRs certified by signature of the Master and his Seal shall be kept on board for one year since the moment of reporting);
- ensure integrity and comprehensiveness of the DSR database submitted to the control authority.

2. List of the documents required to carry out industrial fishing (including off-shore fishing)

8. The Master of the fishing vessel, team-leader or other person responsible for harvesting water biological resources shall have on board as well as on every fishing area:
- original license to harvest water biological resources, as well as further amendments to that license;
- harvest log-book;
- technological log-book (on board of those vessels that process the fish catch);
- text of this Regulations and other documents that regulates harvesting of water biological resources in the harvesting area;
- a statement of compliance to the technical requirements.

3. Provisions to be applied by users of water bio-recourses

9. Users of the water biological resources are not entitled:

9.1. to harvest water biological resources:

[...]
- in excess of the permitted catch quota in connection to harvesting area and species of water biological resources;
- in excess of the permitted catch quota as provided in the license to harvest water biological resources;

[...]

9.2. to take on board (or to hand in) and to have on board of a fishing vessel catch of one species of water biological resources (or processed catch thereof) under the name of other species or without specifying the catch composition, to take on board (or to hand in) the catches without weighing and/or piece-by-piece calculation.

9.3. to keep books and to submit information on catches of water biological resources with misrepresented data of factual catch, its species composition, fishing gear used for harvesting, periods of harvesting and methods of fishing, as well as without indication of the harvest area or with incorrect indication of the.

9.4. to have on board of fishing and other vessels and at the processing shop water biological resources not properly recorded at the harvest and technological log-books.

[...]

IX. Liability for violation of the Fishing Regulations

102. The users harvesting for water biological resources and guilty of violations of the Fishing Regulations shall be accountable under laws of the Russian Federation.

RUSSIAN FEDERATION
FEDERAL LAW ON WILDLIFE¹
(Extract)

Adopted
by the State Duma
22 March, 1995

The wildlife is a province of peoples of the Russian Federation, integral element of habitat and biological diversity of the Earth, renewable natural resource and important regulating and stabilizing element of biosphere which is protected in a comprehensive way and rationally used to satisfy spiritual and material needs of the citizens of the Russian Federation.

Chapter I. GENERAL PROVISIONS

Article 1. Basic Definitions

For the purposes of this Federal Law the following definitions shall be used:

Wildlife shall mean the whole world of living organisms, all wild animals permanently or temporarily inhabiting the territory of the Russian Federation and having natural freedom as well as belonging to natural resources of the continental shelf or exclusive economic zone of the Russian Federation;

Wildlife species shall mean species of animal origin (wild animal) or their population;

Sustained use of wildlife species shall mean the use of wildlife species which results in the long term in the exhaustion of biological diversity while the animals preserve their ability to reproduction or permanent inhabitation;

Wildlife protection shall mean the activities aimed at preserving biological diversity and secure stable existence of animals as well as creating conditions for stable use and reproduction of animal species;

Use of wildlife shall mean legal activities of citizens, individual entrepreneurs and legal entities in exploiting wildlife;

Wildlife users shall mean citizens, individual entrepreneurs and legal entities entitled to use the wildlife under the laws and other legal enactments of the Russian Federation and other legal enactments of the constituent entities of the Russian Federation;

Article 4. State property rights to wildlife species

Wildlife in the territory of the Russian Federation shall be the property of the Russian Federation.

The Russian Federation shall have exclusive sovereign rights and exercise its jurisdiction on the continental shelf and in the exclusive economic zone of the Russian Federation as regards to wildlife species under the procedure established by this Federal Law, other federal laws and legal enactments of the Russian Federation as well as norms of international law.

The following wildlife species can be considered as federal property:
Species inhabiting territorial sea, continental shelf and exclusive economic zone of the Russian Federation;

The relations on possession, use and dispose of wildlife species shall be regulated by civil legislations inasmuch as they are not regulated by this Federal Law.

Chapter V. WILDLIFE USE

Article 33. Rights to wildlife species of persons that are not their owners

A user shall exercise all his/her rights to own and use wildlife species under the terms and within the limits established by law, license and contract with public authorities which provide corresponding territory, water areas for wildlife exploitation.

Article 34. Types and methods of wildlife use

Legal entities and citizens can exercise the following types of wildlife exploitation:
Fishing, including removal of aquatic invertebrates and marine mammals;

The wildlife use shall be exercised through removal of wildlife species from their habitat or without such extraction.

Article 35. Conditions of wildlife use

Wildlife species' users which remove wildlife species from their habitat in accordance with Part 4, Article 34 of this Federal Law shall pay a fee for the use of

¹ In some documents and statements of the Russian delegation the title of this Federal Law was translated into English as "the Federal Law on Fauna" (note by interpreter).
wildlife species in the amount and under the procedure established by the legislation of
the Russian Federation on taxes and tariffs.

... The use of wildlife shall be exercised in compliance with federal and regional
standards, rules, limits and normative standards elaborated in accordance with this
Federal Law, other laws and legal enactments of the Russian Federation as well as laws
and other legal enactments of the constituent entities of the Russian Federation.

... The wildlife use shall be exercised by legal entities and individual entrepreneurs
under the license during the period specified in the license upon the agreement of the
parties and depending on the type of wildlife use within the specified territory or water
area.

Article 40. Rights and obligations of the wild life users

The wild life users shall have the right:
To use the objects of the wild life provided for the use;
.... The wild life users shall be obliged:
To exercise only the types of the wild life use specified in the license;
To observe the established rules, norms and dates for the wild life use;
... to render assistance to public authorities in the protection of the wild life;

Chapter VIII. RESPONSIBILITY FOR VIOLATION OF LEGISLATION OF
THE RUSSIAN FEDERATION ON THE PROTECTION AND USE OF
WILD LIFE

Article 55. Administrative, civil legal and criminal responsibility for violation
of legislation of the Russian Federation on protection and use of the wild life

Legal entities and citizens guilty of committing the following offences:
Violation of rules of hunting and fishing, as well as rules of exercising other types of the
wild life use;
Violation of established procedure of issuing licenses for the wild life use and
permits for removal of objects of the wild life out of their habitat,
Shall bear civil, administrative and criminal responsibility under the legislation of the
Russian Federation.

Article 56. Responsibility of legal entities and citizens for the damage caused
to objects of the wild life and their habitat

Legal entities and citizens who caused damage to the objects of wild life and their
habitat shall compensate for the damage so caused voluntarily or through the judgement
of the court or arbitration court in accordance with tariffs and methods for calculating
damage to the wild life, and in their absence – according to actual cost of compensating
for the damage caused to the objects of the wild life and their habitat taking into account
the loss suffered, including missed profit.

Article 59. Confiscation of illegally taken objects of the wild life and tools for
illegal hunting of objects of the wild life

The illegally taken objects of the wild life and the products, as well as the tools for
illegal taking of objects of the wild life, including means of transportation are subject to
free removal or confiscation in accordance with the procedure established under the
legislation of the Russian Federation.

Removed or confiscated for free the objects of the wild life are subject to be
returned to their habitat. The said objects of the wild life in cases when their physical
condition shall not allow to return them to their habitat, as well as the products shall be
subject to sale or destruction in accordance with the procedure established by the
Government of the Russian Federation.

Removal or confiscation for free of objects of the wild life shall not absolve the
citizens, legal entities who took the objects of the wild life illegally from an obligation to
compensate for the damage caused to objects of the wild life and their habitat.

PLENARY SESSION OF THE SUPREME COURT OF THE RUSSIAN FEDERATION

DECISION
5 November 1998 № 14

On practice of implementation by courts of legislation concerning liability for ecological offences

(Extract)

With a view to guarantee proper and uniform application by courts of legislation concerning liability for ecological offences, the Plenary session of the Supreme Court of the Russian Federation decrees:

1. To draw attention of courts to the importance of guaranteeing proper, uniform and efficient implementation of legislation concerning liability for the commitment of ecological offences. A high level of public dangerousness of this type of offences is due to the fact that the object of their encroachment is the stability of environment and of natural resources potential, as well as the right of everybody to favorable environment guaranteed by Article 42 of the Constitution of the Russian Federation.

[ ... ]

15. When considering cases concerning violations of ecological legislation, courts should find out in every particular case the amount of damage inflicted. When determining the amount of compensation for ecological damage and calculating sums of damage caused by an ecological offence and subject to compensation, courts should be guided by the officially approved centralized methods of calculation and established rates, as well as by regional norms concretizing provisions of the federal legislation.

16. When deciding on whether the damage caused by an illegal catch of water animals and plants or by illegal hunting, is serious or not, courts should take into consideration the amount of water animals and plants caught, damaged or destroyed, the natural occurrence of animals, their belonging to special categories, e.g. to rare and vanishing species, their ecological value, their importance for the particular habitat, game-preserve, as well as the other circumstances of an offence.

When a serious damage is inflicted by illegal catch of water animals and plants or by illegal hunting, courts should establish the causality between the actions of those who are guilty and their consequences.

At the same time, when evaluating the offences committed, courts should in every particular case not only proceed from the value of the catch and quantitative criteria, but also take into account the ecological damage, which is the damage inflicted in general to the fauna and flora.

[ ... ]

For the proper evaluation of the ecological damage inflicted, a court can enlist the services of the relevant specialist.

[ ... ].
